CORPORATE TESTIMONIALS

- Bharat Krishnamurthy
L&D Manager

We strongly believe in upskilling our employees on regular basis.

To carry out the learning effectively, we wanted a strong learning partner who would help our employees to understand the content in effective manner and also would ensure full commitment towards achieving higher success rate.

We did reach out to several vendors to check on the above ask but post evaluation we found Zell Education to be a best fit. Not only they did outshine in their earlier evaluation, but post their 1st batch in 2021 we have also received wonderful feedback from our employees on the tutorials and admin support provided by them. Kudos to Zell Education, keep up the good work.

- Nirbhay Vassa
Executive Director & CFO, Abans Group

We had a constant requirement for professional training of various qualifications to ensure our employees stay up to date with recent developments in the world of finance.

However, we found it difficult to manage the training requirements given the requirement of strong online infrastructure internally and with our goal being to provide quality training, we decided to step out and seek external support.

Zell taking over the end to end process meant we simply had to register interested candidates with them and the rest was taken care of from day 1. It was pleasing to see our employees clear their professional exams and our goal of providing them with quality training was met.
